EDUCATION

University Of Dundee - MSC Computer Science

Dundee, Scotland - Jan 2025 – Jan 2026

Caritas University – Business Administration

Enugu, Nigeria - Sep 2018 – Dec 2022

Skills

FRONT-END DEVELOPMENT: JavaScript, React.JS, Next.JS, Tailwind CSS, TypeScript, Redux Toolkit, React Native, Zustand.

BACK-END DEVELOPMENT: NodeJS, MongoDB, Express.JS, MYSQL, Fast API, Python.

AI Engineering: Hugging Face, Transformers, LangChain, LangGraph, LLMs, RAG, Speech-to-Text, Vector DB, Streamlit, Prompt Engineering, LLM Engineering.

TESTING: Jest, Vitest, PyTest, Postman.

Devops: Docker, AWS, CI/CD – GitHub Actions, Vercel.

Work Experience

Team Lead – Software / AI Engineer (HealthTech Startup) - Curaflux

2025 - Present

- Leading development of a healthcare platform in active development, coordinating a small engineering team.
- Building full-stack features, backend services, and AI-assisted functionality.
- Working closely with product and design, making pragmatic technical decisions to deliver value efficiently.

Software Engineer – Tech Studio

2023 – 2024

- Developed and maintained **10X Revenue**, a learning platform with diverse course offerings for users of all skill levels.
 - Built and optimized **Skicom**, a web/mobile solution that simplifies mobile data purchasing for users.
 - Collaborated with designers and developers to deliver scalable, user-friendly features with a focus on performance and accessibility.
-

PROJECTS

StudyM8 – Automated Study Planner

<https://studym8.vercel.app>

(Next.js 15, TypeScript, Zustand, Gemini AI, MongoDB)

- Built an AI-powered study planner that transforms images or PDFs into structured, time-estimated study roadmaps and personalized calendars.
- Integrated generative AI to summarize content, track study progress, and enhance learning efficiency through intelligent task management.
- Enhanced productivity with an in-built calendar and automated Upstash cron job reminders, ensuring students stay on track with their plans.

SayIT – AI Communication app

<https://sayit-ten.vercel.app/>

(Next.js 16, TypeScript, FastAPI, Postgres (Neon), Zustand, HuggingFace (Qwen))

- **Empowering Communication:** Lets users with speech impairments write with a device pen and have AI speak it out.
 - **Bidirectional Support:** Converts written text to speech and speech to text for smooth communication.
 - **AI Assistance:** Uses real-time AI to make communication fast, clear, and accessible.
-

Certificates

- New Horizon ICT Ikeja Lagos State Frontend web development
- Tech Studio Academy Lagos State Full Stack (Backend Development)
- Udemy (React/Next.js, React Native/Expo, MERN Stack, AI Engineer Bootcamp)
- Coursera (IBM RAG and Agentic AI Professional Certificate) – In Progress
